Subject: Uber Support

To Whom It May Concern:

I am writing you to voice my support of Uber to be allowed to operate in South Carolina.

I have recently opened a small business in the State with the full intention of being able to reside here on a permanent basis. My work takes me all over the country and I heavily rely on Uber and Car/Taxi service wherever I go.

In this progressive State, with technology companies such as Boeing, Google, BlackBaud, etc. should we not be embracing the benefits what new technologies that are being brought to the market?

Keep in mind, this is still scratching the surface on what technological advances are ahead, should we stop receiving traffic reports on our smartphones because we can read about it in the newspaper?

These technologies will help (not eliminate) the amount of congestion on our roadways.

Sincerely,

Randy Marra

In my experience, Uber is WAY better than regular cabs in the Columbia area. Have any of you actually ridden in a regular cab lately? They are for the most part a joke!

I am 100% behind Uber!
